"自然・環境に恵まれたまち"とは、私が「四季折々の草花、動物たち、川や湧水などの自然が 豊かだ」、「まちの歴史や文化伝統を大切に次の世代に手渡していける」と実感できるまちです。 そのためには、豊かな自然や環境を守り、育て、さらに魅力を引き出していくことが何よりも 大切です。

まちの自然・環境のすばらしさを、誰もが自信を持って語り合い、歴史や文化伝統を誇れるよ うなまちを創り出したいと思います。

"A city blessed with nature and environment" is a city where we can truly feel that "there is an abundance of seasonal flowers and plants, animals, rivers and springs," and that "the city's history and cultural traditions can be handed down to future generations." To achieve this, the most important thing is that we protect and nurture our rich nature and environment, and draw out even more appeal. We want to create a city in which everyone can talk about the city's wonderful nature and environment with confidence, and be proud of the city's history and cultural traditions

青葉台公園

Aobadai Park

子どもに人気の遊具のほかに野球のできる芝生広 場やテニスコート、ゲートボール場、親水施設が あり、幅広い年代の人が楽しめる公園として多くの 人が訪れています。

With its popular playground equipment for children, a grass field perfect for playing baseball, tennis courts, croquet lawn, and water-play facilities, this Park attracts large numbers of people of all ages.

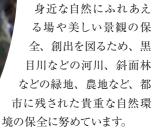

To preserve and create spaces and beautiful landscapes where people can encounter nature close at hand, the city is working hard to preserve the treasured natural environment that remains in the city, including the Kurome River and other waterways, green areas such as the forests on slopes, and farmland.

受け継がれたまちの記憶を 次の世代へ繋いでいきます。

田植え体験

Connecting the memories passed onto the city from the past with future generations

まちのあゆみを後世に伝えていくため の、地域の歴史や伝統の継承・保護に努 めています。また、恵まれた自然や環境 を生かした独自の文化の創出・育成に取 り組んでいきます。

The city is passionately engaged in the inheritance and preservation of the region's history and traditions, so the path that the city has taken can be passed on to future generations. We will endeavor to create and nurture our own unique culture that makes the most of our blessings of nature and the environment.
